Subject: Appeal to intervene regarding the suspension of four faculty members  
at the South Asian University, New Delhi

Hon'ble Foreign Ministers of SAARC Countries,

On June 16, 2023, four faculty members of the South Asian University (SAU), New Delhi, were suspended by the university administration for expressing their concerns about the inhumane treatment and arbitrary punitive actions of the administration against students. The faculty members are: Dr Sneathish Bhattacharya, Faculty of Economics; Dr Srinivas Burra, Faculty of Legal Studies; Dr Irfanullah Farooqi, Department of Sociology, Faculty of Social Science; and Dr Ravi Kumar, Department of Sociology, Faculty of Social Science. The professors were questioning the compassionless manner with which the SAU administration dealt with the students who were (a) protesting a decrease in their monthly stipend last year and (b) asking for fair representation in sexual harassment and gender sensitization committees. The administration, rather, called in police to disperse students exercising their democratic right to protest. The suspended professors had registered their concerns about calling police to the campus to intervene against students and regarding the retributive measures taken by the administrators against the protesting students. The professors were urging the university to take a constructive approach to addressing the students' concerns and resolving conflicts.

The censoring actions taken against the professors stand in conflict with the traditions of openness, dialogue and mutuality that are the hallmarks of the Indian education system. They also stand in conflict with a faculty's obligations to speak on students' behalf and ensure a safe and supportive learning environment that promotes the well-being and educational development of students. Teaching, conducting research, and contributing to the academic community are all integral parts of a faculty member's professional responsibilities. Thus, the suspension order violates the basic rights of faculty members to exercise their professional skills and fulfill their obligations, while at the same time, denying the students of valuable instruction and mentorship. Recognizing and respecting the professional skills and contributions of faculty members is crucial for fostering a vibrant and productive academic community.

Ultimately, the goal of any academic institution is to create an environment that protects the welfare of students while upholding the principles of justice, fairness, and respect for the rights of faculty members. The arbitrariness and callous disregard with which the administrators have taken actions against the professors violate the norms of accountability, transparency, integrity and sustainability of academic institutions. This will undermine a vibrant and productive academic community and can erode the trust and academic character of the university.

We urge you all to intervene in this regard and call upon the SAU administration to immediately revoke the unfair and arbitrary suspension orders and establish a congenial academic environment in the university.
